- ▶ AcceleDent® technology
- ▶ TruDenta® system with T-scan technology
- ▶ iTero® scanner

Invisalign Difference

If you're considering orthodontic treatments to straighten crooked or misaligned teeth without the use of bulky metal braces, you might want to look into Invisalign. It's a state-of-the-art, teeth-straightening technology that uses clear, customizable aligners. Virtually imperceptible, nobody will notice you're wearing them.

Speak with Dr. Milestone to learn more. To schedule an appointment, please call 973.325.1777 (West Orange) and 201.845.8411 (Paramus) or use our online Request an Appointment form.
